

Dear Partner,

We have good experience in wholesale VOIP business and we are expanding our experience by starting our new project Stat CDR.

Stat CDR is a software which help daily VOIP tasks easy on a single interface. You can consider it as VOIP operating system of your daily needs.

Stat CDR have 3 Plans with different features. All 3 plans we are offering are based on monthly subscription basis and one time sale out too. Currently we are offering following features based on plans.

Plan 1	Plan 2	Plan 3
Appointments	All of Plan 1	All of plan 2
Agreements	Disputes	Rates
Signatures	Daily TOP lists mailing	LCR
Attendance		
Trouble Tickets		
Billing		

\*Plan 3 is the best solution and it covers all important features for VOIP companies.

#### Features in detail

##### Plan 1

**Appointments:** While attending VOIP conferences, making appointments organized is difficult, but Stat CDR makes it easy. Your customer can fill your online appointment form and can select meeting person, meeting time, venue and those slots will be reserved. Meeting personal can fill the discussion same time in online and submit it.

**Agreements:** Most small, in-country vendors don't sign agreements, some vendors change their bank details most frequently. Stat CDR makes all it simplify and reduce most paper works. Stat CDR itself send trade reference emails and keep all data organized in the dashboard. Stat CDR fills all your approved agreements with your pre-uploaded JPG or PNG format signature and sends your partners by mail.

**Signatures:** If out of Stat CDR, you fill agreements, you can upload to stat CDR in pdf format and sign online and send your partners. You can sign on PDF format documents online with help of Stat CDR. It reduces paper printing and scanning works.

**Attendance:** Most of VOIP companies employees work remotely, with Stat CDR, you can take employees attendance and prepare to pay slips easily.

**Trouble Tickets (TTs):** Stat CDR makes your desired E-mails as customer care mails, open a ticket and send with details to sender mail id. Your support engineer can monitor all open TTs and can reply personalized and can use canned replies too. If TT not closed, Stat CDR will inform canned reply to

customer time to time till TT solved. Your support engineer can send TTs to vendors and if vendor not replies, Stat CDR will mail all vendor repeatedly with given time frame for replies.

**Billing:** With excel or CSV sheet input, Stat CDR makes it all Invoices and will send your customers with your designed templets in pdf format. All received invoices from your vendors will become as bills and it makes SOA in VOIP approved format. With Stat CDR sending, receiving Invoices, making SOAs is very easy.

Here plan 1 will be ended, and for it, a monthly subscription is 45 USD (No hidden or setup charges) and its one-time sale out charge is 600 USD. 1st-year maintenance, updates are free and from 2nd year, 60 USD will be charged as prepaying for maintenance and updates charge.

Plan 2 (including Plan 1) Plus

**Disputes:** This is one of the most challenging parts of VOIP wholesale industry as the CDR record will be in thousands to millions. Stat CDR will compute 100 thousand in 5 minutes based on server load. Stat CDR provides various result lists for you.

**Daily TOP lists mailing:** This future sends your top offers, targets lists to all available emails ids as undisclosed recipients. This information enhances your business.

Here plan 2 will be ended, and for it, a monthly subscription is 60 USD (No hidden or setup charges) and its one-time sale out charge is 750 USD. 1st-year maintenance, updates are free and from 2nd year, 75 USD will be charged as prepaying for maintenance and updates charge.

Plan 3 (including Plan 2) Plus

**Rates:** In wholesale VOIP, sending and receiving rates, have to follow so many rules. Stat CDR will follow every rule while sending rates to your customers and check all while you receive from your vendor. Sending receiving rates will be so easy with Stat CDR and even sales team can send rates too if needed. All excel attachments will upload as rate notifications to Stat CDR automated, check all rules and will give you export as your switch import format. Stat CDR will generate LCR, LCR with given profit percentage and send all your customer's rates time to time.

**LCR:** Based on your Vendor, customer rates, Stat CDR make buy and sale LCR. You can monitor offer, target rates provider names, customer names very easily with Stat CDR.

Here plan 3 will be ended, and for it, a monthly subscription is 75 USD (No hidden or setup charges) and its one-time sale out charge is 1000 USD. 1st-year maintenance, updates are free and from 2nd year, 100 USD will be charged as prepaying for maintenance and updates charge.
